

**RECYCLE OFTEN.  
RECYCLE RIGHT.<sup>SM</sup>**

# NEWSLETTER

## Thanks for keeping your recyclables clean and dry!

In the world of recycling, small steps equal big change. Emptying your soda can or rinsing your tub of yogurt before putting it into the recycling bin makes a big difference.

In fact, when it comes to recycling, recycling right is just as important as the act itself. We need items in the recycling bin to be clean and dry in order to make a difference for the environment.

So next time you go to recycle something, please remember the **Recycle Often. Recycle Right.<sup>SM</sup>** rules:

**Recycle all empty plastic bottles, cans and paper.**

**Keep foods and liquids out of the recycling.**

**Keep plastic bags out of the recycling.**

These three steps may seem like small acts in themselves, but they have a big impact on making sure that the items you put in your recycling bin get recycled and turned into new items.

Together we can help protect the environment and do the right thing for our families, friends and communities. For more information on recycling right, visit [RecycleOftenRecycleRight.com](http://RecycleOftenRecycleRight.com).

**RECYCLE OFTEN.  
RECYCLE RIGHT.™**

Did you know...

**Foods and liquids  
can spoil a whole  
load of recycling.**

**So keep wet and dirty items  
out of the recycling and when  
in doubt, leave it out.**

**We've made some updates to what is accepted in your  
recycling bin. Follow these three simple rules when recycling:**

**1**

**Recycle all empty plastic  
bottles, cans and paper.**

**2**

**Keep foods and liquids  
out of the recycling.**

**3**

**Keep plastic bags  
out of the recycling.**
